

How you can support your child at home:

1

Encourage them to read – anything and everything!

2

Look at Google Classroom regularly; the expectation is that all students complete home-learning

3

Make sure your child has the right equipment with them everyday (pen, pencil and ruler)

Art:

Students will complete a range of tasks, exploring the key elements of Art and Design. They will have the opportunity to work in response to a range of artists such as Peter Blake, Dan Baldwin and Vanitas, Lichtenstein

Computer Science:

Comic Strip: Students will plan, write, draw and create a comic strip on a topical subject

Drama:

Key Life Skills: Students will learn a range of skills in preparation for life after education. This will include interview technique, conflict resolution and promoting a positive image

English:

Short Stories: Students will read a range of short stories, identifying the features of a good short story and experimenting with using these features in their own work

French:

Students will explore French history and culture: they will understand why the population of France is so diverse and complete a final assessment on the healthy/unhealthy living modules that have been covered this year across all four skill areas

Geography:

Climate Change - UK to Local: Students will look at how climate change will impact upon our lives in the UK as well as more locally on the Isle of Wight

History:

Anglo-Saxon and Viking Britain: Students will learn about Britain as a divided nation before the Norman conquest

Maths:

Using Number: Students will learn about non-calculator methods, types of number and sequences and indices and roots

Music:

Musical Futures 6: Students will build on practical instrumental skills and be able to perform as a soloist or a member of an ensemble

Personal Development:

Mental Health: Students will learn about stigma, trauma and strategies for managing emotional changes

PE:

Games - activities include: tennis, cricket, softball, rounders, frisbee, volleyball and lacrosse

RE:

Students will explore different types of religion, secularisation and how religion has changed and why

Science:

Students will learn about: forces and pressure, speed and motion. They will also study electrolysis, chemical analysis, reproduction and ecology. There will be an end of term test in all disciplines

Spanish:

Dragons Den: Students will learn to read, listen to and write about devising a new product or app to make learning a language easier

Technology:

Students will rotate through the three areas in Technology: Design Technology: students will learn to design and make a product for charity using a wide range of wood joints. Food and Nutrition: Students will look at the physical and chemical properties of ingredients. Graphics: Students will use the skills from Yr7 and 8 to create suitable, detailed packaging
